Olmo Mecurio - Alevé and Mune Black - Losa

Olmo Mecurio - Alevé

## Finishes Explained

### Alevé

A finish designed to highlight the tactile surface of wood. This surface was inspired by Alevé, an ancient forest in Piedmont, Italy.

### Losa

Interprets with great naturalness and personality the vibrant channelling of slate stone, the structure of the finish reproduces the 60 degree inclined cut to give a three-dimensional finish.

### Luna

Its surface irregularity, inspired by the lunar surface, creates deep three-dimensional effects. A rough surface with rugged charm.

### Mika

Inspired by the mineral mica, through luminous reflections this finish brings elegance and brightness.

### Kèr

Inspired by the texture of marble, Kèr is a matte finish that adds elegance through its pairing with sophisticated patterns.
